**Overall COVID Hospitalizations Drop Below 100 for the First Time Since June 24<sup>th</sup>  
with Intensive Care Units Operating Below Surge Capacity**

French Camp, Calif. – Hospital Adult Intensive Care Units (ICU) in the County are operating at **98% capacity** while total hospital capacity is **at 69%**. San Joaquin County hospitals report **4 patient death** due to COVID in the past 24 hours.

For the first time in 77 days hospitals in San Joaquin County report fewer than 100 patients requiring hospitalization due to COVID-19. “This is welcome news heading into the Labor Day Weekend and represents significant progress in the fight against the novel corona virus. By working together and following the advice of the public health officer to wear a mask, wash hands, socially distance, and avoid social gatherings we can all help to get kids back on campus.” said Dan Burch, EMS Administrator.

**What People Should Do If They Have A Medical Emergency Or Are Sick:**

Do not delay seeking care. If you are experiencing a medical emergency such as a heart attack, stroke, difficulty breathing or altered mental status contact 911 to activate the EMS system. If you are ill or sick, contact your physician or healthcare provider.

**How People Can Protect Themselves:**

We are all in this together. Every person has a role to play. Your actions save lives.

**DO:** Stay home; Avoid people outside your household; Wash hands with soap and water for at least 20 seconds; Wear a face mask when out in public; Cover your cough or sneeze; Frequently clean and disinfect touched objects and surfaces; Maintain physical distance of six feet whenever outside of the house; Stay away from work, school or other people if you become sick with respiratory symptoms like fever and cough.

###

Notes to editors:

- San Joaquin County OES in partnership with San Joaquin County EMS Agency will provide updates daily on the most current hospital statistics Monday-Friday.

September 4, 2020  
Release

SJC OES – SJCEMSA Press

- Graphs and tables will be provided showing hospital bed capacity, adult ICU capacity and historical tracking. Note: the CDPH county data monitoring website combines adult, pediatric and neonatal ICU bed capacity in its reporting.
- This document is intended to prevent and control the transmission of COVID-19 by informing the public and serves a public health purpose.
