

The mission of the San Joaquin County Office of Emergency Services and the SJReady program is to support a prepared and resilient community and improve emergency management capabilities to protect those who live, work and play in San Joaquin County. SJReady encourages residents to make a plan, build an emergency kit, stay informed and get involved. Everyone should have basic supplies on hand that are inexpensive and easy to find in order to survive several days if an emergency occurs. It is important that individuals review this list and consider the unique needs of their family, including seniors and pets, for items to include. It is impossible to predict where and when an emergency occurs, so it is best to prepare supplies for home, work and vehicles.

To stay informed, San Joaquin County residents are encouraged to sign up for SJReady Alerts, a community notification system to alert residents about emergency events and other important public safety information. To sign up, visit: SJReady.org/Stay-Informed.html
